Upon arrival, head north from Perth's central business district and joining the Indian Ocean Drive at Yanchep, cruise past pristine beaches and pretty spring wildflowers on a scenic drive to reach Lancelin in just 1.5 hours. At midday, indulge in a **half-lobster lunch** before making your way to Geraldton. Kick off your morning with a visit to **Kalbarri National Park**. The 500-metre walk to **Nature's Window** also presents great photo opportunities, as the natural hole in the ancient rock perfectly frames the Murchison

River carving through the gorge far below. Thereafter, visit **Kalbarri Skywalk** for spectacular views of the 400-million-year-old sandstone that formed the gorge and all its surrounding environment. Next, drop by the gorgeous **Hutt Lagoon**. One of the most picturesque spots in Western Australia, the dreamlike, pink hue of Hutt Lagoon comes from the presence of the algae *dunaliella salina* in the water, and the colour vibrancy is known to change with the seasons and time of day. Finally, head to the **Coastal Cliffs** to see the **Natural Bridge**, formed from the thousands of years of surf pounding away at the cliffs, creating a tunnel through one strong section jutting out into the ocean.

Breakfast, Dinner

Today, experience one of Australia's most mystical landscapes – **The Pinnacles Desert**, which is located inside **Nambung National Park**. The Pinnacles are amazing natural limestone structures, formed approximately 25,000 to 30,000 years ago after the sea receded and left behind deposits of seashells. Over time, coastal winds removed the surrounding sand, leaving the pillars exposed to the elements. The Pinnacles range in height and dimension - some stand as high as 3.5 metres! Day 3: Hobart - Port Arthur Historic Site - Tasman Peninsula

Head to visit this UNESCO World Heritage-listed Port Arthur historic site (at your own expense) first, it was one of the earliest convict settlements in Australia back in the 1800s and is now officially Tasmania's most visited tourist attraction. You'll need a ticket

The site is spread out over gardens and building ruins, so prepare to spend a few hours exploring the grounds and learning about the convict history. One of the distinguishing features of the Tasman Peninsula is its rugged, rocky coastline. Once you pass Eaglehawk Neck, there are a few stops where you can pull over to see some of the rock formations. Tessellated Pavement is arguably the most famous. The flat rocks here have a naturally formed criss-cross pattern from fractures in the rock, and the tide often leaves pools of water sitting in the rectangles to create a reflective surface, making it popular with photographers at sunset. Some other rock formations to see are Tasman Arch, Devil's Kitchen, and the Blow Hole.

Private Touring

3D2N Kangaroo Island

Day 1

Begin your three day tour of Kangaroo Island with our Island Life itinerary. Welcome to Island life – where things take time, drivers wave as they go by – or even stop for a chat. Have a cuppa with some home-made treats before taking a walk down a country track through tall Eucalyptus trees where koalas snooze overhead or wake briefly for a feed. Listen for the sounds of the bush – brightly coloured honeyeaters and brilliant parrots, cicadas or perhaps just the sound of silence. Travel through the Island's most productive country to the north coast. Walk through the bush with your guide – through strangely shaped trees learning what makes that noise, whose tracks are those, and who left THAT little pile there? Look for small wallabies almost extinct on the mainland, a kangaroo found only on Kangaroo Island and a variety of other birds, plants and animals. Break for lunch at a private bush camp and enjoy a delicious meal featuring King George whiting (local sea fish), fresh salads and fine South Australian wines. At Seal Bay Conservation Park take a private tour with your guide among Australian sea-lions on a beautiful sandy beach – an experience similar to that of the Galapagos. Watch pups nursing or playing in the surf, see old bulls bearing the scars of territorial disputes and learn about their unique breeding biology.

Day 2

Begin the day travelling through some of the fire-affected landscapes of Kangaroo Island, which are recovering quickly following generous winter rains. Learn about fire ecology and how nature deals with fire. Some of our native flora species only flower following fire! Travel into Flinders Chase National Park and explore the massive shapes of Remarkable Rocks, a natural sculpture perched impossibly on top a granite dome plunging into the ocean. Break for an elegant picnic lunch in the bush, or if weather permits, on a spectacular clifftop. Lunch features marinated poached chicken, fresh salads, cheeses accompanied by local wine, beer, soft drinks and spring water. Evidence of the power of the Southern Ocean swell continues at Admirals Arch – a coastal grotto which provides a haul out for a large colony of Long-nosed fur seals which swim effortlessly through crashing waves.

Day 3

Begin the day in the pristine farming region of Cygnet River, which produces a range of primary food sources including barley, wheat, canola, oats, lamb and beef. Learn about the agricultural history of Kangaroo Island and pass by Kangaroo Island Pure Grain, which is 'GM-free' and offers consumers farm-gate traceability and complete production history. Our first stop is Kangaroo Island Olives, where father and son duo, Michael and Dom, produce olives from a grove of 5000 trees. This enterprise reflects both our Mediterranean climate and the rich immigrant history of South Australia. Our tailgate tasting includes both table olives and some of the delicious oils they produce. On our way to the coastal town of American River, we pass Fryar's Kangaroo Island Free Range Eggs and learn about the fascinating egg farm. The hens are free to roam wherever they like foraging in the pastures under the careful protection of Maremma guardian dogs. American River is home to the Kangaroo Island Oyster Farm Shop, which produces delicious Pacific Oysters in the calm waters of Eastern Cove. Depending on the season, we will either sample some oysters in the shop or at a secluded picnic spot. Our alfresco lunch features smoked meats, fresh salad and a selection of local beer and wines. After lunch, we head inland to visit Clifford's Honey Farm. Since 1973, the Clifford family have specialised in producing honey from Kangaroo Island's Ligurian Bee. Here we will gain an insight into the production of honey, including a tasting of a range of honey plus Jenny's famous Honey Ice Cream! The Islander Estate Vineyards are one of Kangaroo Island's premium wineries, producing a range of stunning red and white varieties. We visit their tasting room and will sample a selection of their wines whilst hearing about some of the creative winemaking techniques used by owner and winemaker, Jacques Lurton, from Bordeaux, France. End the day with a tasting at Kangaroo Island Spirits, who have won numerous awards globally (including New York and London) for their range of beautiful gins and liqueurs.

9. **GENERAL MATTERS RELATING TO TOURS**
- 9.1 **Accommodation**
Accommodation is as specified in the tour brochure / itinerary / tour booking form. In the event the specified accommodation is not available, every effort will be made to scout for an alternative in another accommodation of similar standard. Hotel room sizes, facilities and services may vary in different country. Accommodation for adults is based on twin-share, double or triple-share bedroom. Different room type might not be on the same level. Single room occupancy comes with an additional cost.
- 9.1.1 Room size is generally slightly smaller than what you may be used to. Space is precious commodity in Europe and especially in its busiest cities. Many of the buildings will have been in existence for hundreds of years and were not built with the modern traveller in mind. The upside is that they are usually in excellent locations and have a fascinating story to tell.
- 9.1.2 Bed sizes may also differ. In Europe, King and Queen-sized beds are very rare. Here, double beds are the norm and you may often find that a double room consists of two twin beds pushed together instead of a full bed, made up with one set of linen. You may also find that twin beds will be placed very close together.
- 9.1.3 A triple room is the same size as a twin-share room. The third bed is always a roll-away bed or sofa bed added into the room. As a result, you may feel that the room is very cramped and small.
- 9.1.4 Europeans are very socially and environmentally conscious, especially about air-conditioning in Europe. During autumn and winter seasons, the central air-conditioning will be switched off in the hotel rooms. So, do not expect that the air-conditioning will be switched on in the room. You may open the windows to let cold air in, where possible.
- 9.2 **Special Request**
If there are any requests regarding special meals, dietary requirements, adjoining rooms, flight seating arrangement and so on, please inform the Company upon booking. However, such requests are strictly subject to confirmation and availability by the airlines/hotels. There are no halal meals on tour.
- 9.3 **Baggage**
